How it works

Ditch the hassle of cash. Instead, automate and streamline processes with digital tip payouts.

1 Choose Your Settings

In Gratuity Solutions' PayDay Portal, create tip pooling settings custom to your organization's needs.

2 Calculate Tips

PayDay Portal automatically calculates your staff's tip earnings at the end of each shift. Simply have an administrator verify the amounts.

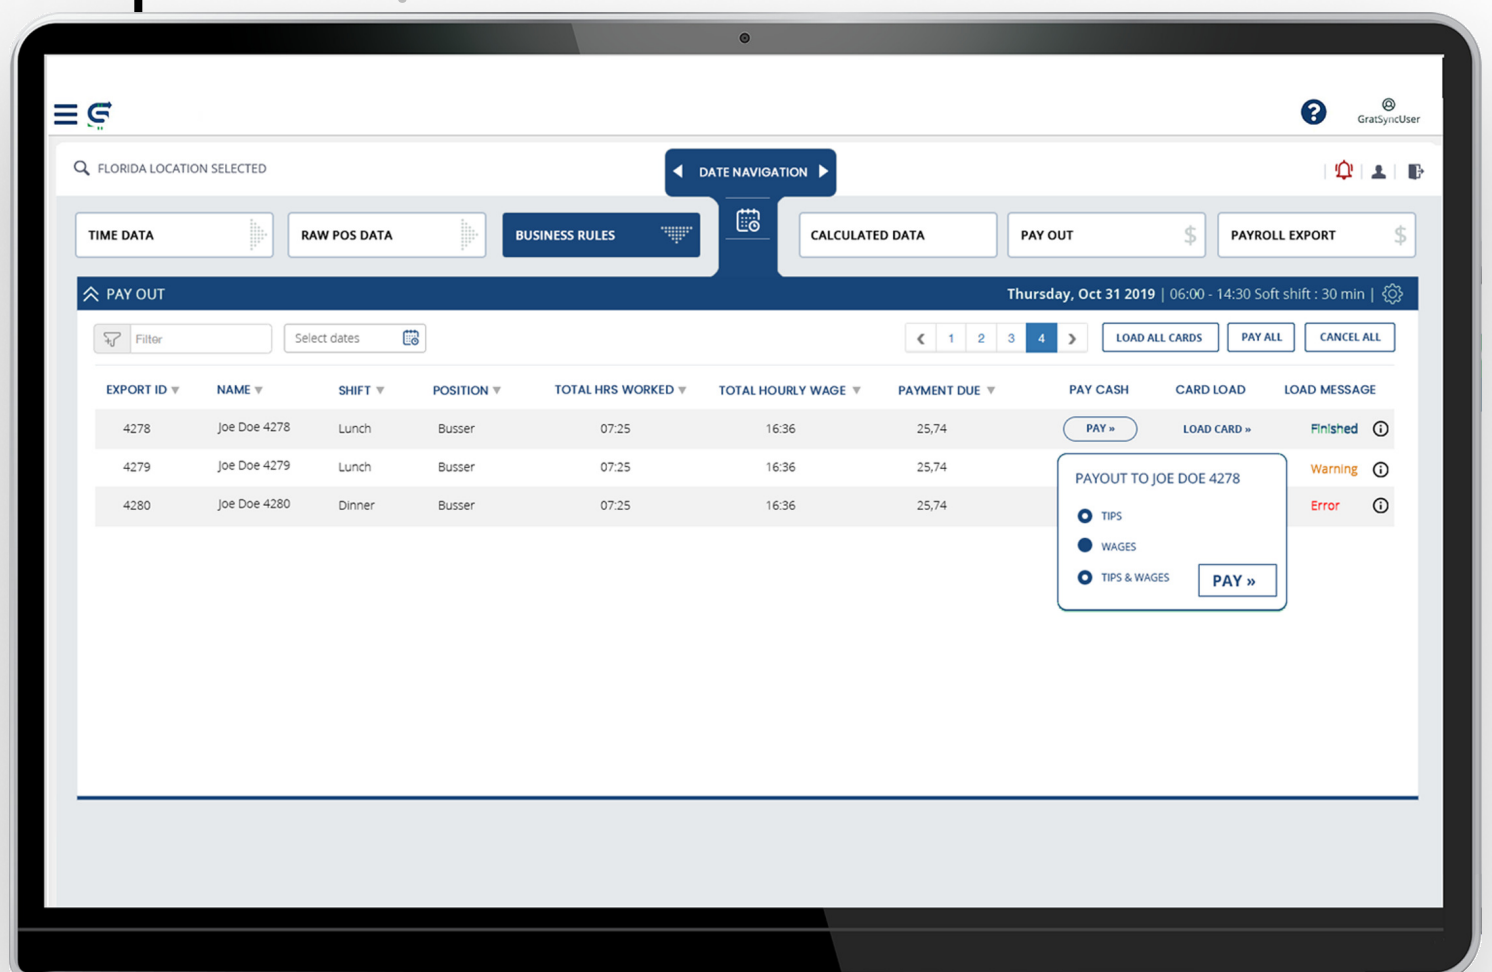

3 Instantly Tip Employees

Payments are pushed from PayDay Portal to employee Branch accounts, providing instant access to tips (even nights, weekends, and holidays).

4 Workers can send, spend, or save

Employees can instantly use their tips—whether spending on their Branch Card and Digital Wallet, getting cash from an ATM, or transferring to other accounts.

Push payments to any wallet and workers can access them in seconds.

“

The combination of Branch and Gratuity Solutions has worked like a charm. We pride ourselves on paying people every day...this solution has allowed us to get our employees paid accurately daily, mitigate errors, and save between 40 minutes and 2 hours of management time daily.

For more than your tipped workforce

Branch eliminates costly paper check issuing and paycard management and allows you to offer a full, free digital banking experience to employees instead. Workers can receive not only their tips, but also their direct deposit paycheck, mileage, and any other rewards and reimbursements all in one place.
